PROJECTS

FoodBazaar - Food Ordering website

<https://food-order-website-frontend.onrender.com>

- **Deployed:** The website is fully deployed and ready to serve food lovers and creators alike.
- **Food Ordering:** FoodBazaar makes it easy to order from a wide range of restaurants. Just a few clicks and your favorite meal is on its way!
- **Order Tracking:** Stay updated with real-time tracking of your order. Know exactly when your food will arrive.
- **Secure Payments:** With our fully integrated Stripe payment methods, transactions are not only seamless but also secure.
- **Restaurant Management:** FoodBazaar allows users to create and manage their own restaurants, reaching more customers and growing their business.
- **Technology Stack:** Built using cutting-edge technologies like **ReactJS, TypeScript, ExpressJS, Tailwind and MongoDB**, ensuring a robust and user-friendly experience

Filmpire - Movie Website with Voice Assistance

filmpire.netlify.com

- **Personalized Experience:** Secure login system for a tailored user experience.
 - **Recommendations:** Discover movies based on favorite genres and actors.
 - **Interactive Voice Assistance:** Navigate and interact with the site using voice commands.
 - **Customizable Themes:** Switch between Dark and Normal modes for a comfortable browsing experience.
 - **Technology Stack:** Developed using **ReactJS, Redux, Material UI, Alan AI, and third-party APIs.**
